“HEALTHY PET PROGRAM”

Through the day to day operation of boarding, pets will be exposed to contagious organisms. Although no “negligence” is involved by the operator of the facility, the pet owner’s sense of justice is offended when he/she is asked to pay for something that occurred when the care of their pet was entrusted to others. To address this quandary, Paws By The Lake has established a *Healthy Pet Program*. This program defines the level of liability the Pet Health Campus will assume for pets that become ill while boarding where no improper care was involved.
